

ATRAS

The perfect fit for your workflow

Cost-efficient bulk loading and sorting

Cut down your process time

Enjoy a throughput of approx. 3,000 samples/hr

Profit from fast bulk-to-rack sorting on a very small footprint

Avoid manual errors

Identify samples in question as early as possible

Simplify your daily life

Release your staff from repetitive tasks

Experience the reliability of the 4th ATRAS generation

Appreciate intuitive operation and easy error-handling

Continuously (un)load ATRAS during operation

Configure the ATRAS to fit your needs

Benefit from numerous output configurations for sorting into bulk bins, racks and centrifuge buckets

Extend ATRAS with our intelligent sample transportation system InTrac

Profit from additional features
